## THE NORTH LONDON INDEPENDENT GIRLS' SCHOOLS' CONSORTIUM

### Group 2

# YEAR 7 ENTRANCE EXAMINATION

#### **MATHEMATICS**

Friday 10 January 2014

Time allowed: 1 hour 15 minutes

First Name:					
Surname:	*************				
Instructions:					
• Please write in pencil.					
• Please try all the questions. If you cannot answer a question, go on to the next one.					
• Do your rough working in the space near each question.	$\bigcirc$				
Do not rub out your working as you may get marks for it.					
Calculators and rulers are NOT allowed.					

1. Work out 345 + 6789

Answer: .....

2. Work out 3201 – 456

Answer: .....

3. Work out  $865 \times 7$ 

Answer:

4. Work out 3832 ÷ 8

11 and 12 are consecutive whole numbers.
 Write down two consecutive whole numbers which add up to 75

Answer:	 and	
THIS WULL	 and	

6. Which number divided by 1000 gives 2.08?

Answer:	
---------	--

7. Circle the number which will be in the middle when the numbers below are written in order of increasing size.

3.64

3.564

3.654

3.465

3.546

8. (a) Work out one fifth of 180

Answer: .....

(b) Work out  $\frac{5}{8}$  of 96

Answer: .....

9. Work out the sum of the numbers:

0.04

0.6

0.16

10. Farmer Andrew's chickens lay a total of 314 eggs.

Each egg box holds only 6 eggs.

How many egg boxes will Farmer Andrew be able to completely fill with these eggs?

Answer: .....

11. Write a number in each box in order to make the calculations correct.

(a) 
$$3 \times 6 + \boxed{\phantom{0}} = 25$$

(b) 
$$88 \div 4 = \boxed{-9}$$

(c) 
$$7^2 = 51 - ( \times 4)$$

12. Shade 75% of the shape below.

13. The thermometers below show the temperatures, in °C, inside a fridge and a freezer.

(a) How many degrees warmer is it in the fridge than in the freezer?

Answer: degrees

The temperature in the freezer should be 3 degrees colder.

(b) What temperature should it be in the freezer?

Answer: .....°C

14. Given that  $7.84 \times 6 = 46.8$ , work out the value of  $7.84 \times 18$ 

	The composer Georg Philipp Telem	ann lived for 86 years and 3 months.
	For how much longer did Telemann	live than Bach?
		Answer: years months
16.	A recipe to make 12 blueberry muft blueberries, in addition to other ing	fins requires 300 grams of flour and 180 grams of redients.
	(a) Charlotte wants to make just 9	muffins.
		e following ingredients will she need?
	(i) flour	
	*	
		Answer: g
	Z''N 1.1 . 1 1	7 1115 17 01.
	(ii) blueberries	
		Answer: g
	(b) Paul has a one kilogram hag o	f flour. If he uses the whole kilogram of flour to
	make blueberry muffins, how n	
		Answer:

15. The composer Johann Sebastian Bach lived for 65 years and 4 months.

17. (a) The number machine below changes numbers according to the rule

#### multiply by 3, then add 6

input 
$$\rightarrow$$
  $\times$  3 then  $+$  6  $\rightarrow$  output

Complete the input and output numbers for the machine.

(b) There are two possible function machines which will give results shown below. Work out both possible answers.

Answer: ..... then .....

or ..... then .....

18.	The	e number 8 has four factors: 1, 2, 4 and 8							
	(a)	Which is the first number greater than 10 to have exactly four factors?							
		A							
		Answer:							
	(b)	Write down any number less than 20 which has exactly three factors.							
		Answer:							
	(c)	Some numbers have only <b>two</b> factors.							
		What is the special name given to this type of number?							
		It may help you to write down some numbers with only two factors.							
		P							
		Answer:							
19	(a)	A packet of 9 chocolate cookies costs £2.61							
1),	(4)	What is the cost of 4 of these chocolate cookies?							
		Answer: £							
	(b)	Carla bought 2 books from a shop, and paid a total of £8.50							
	(-)	One book cost 60 pence more than the other.							
		What was the price of the <b>cheaper</b> book?							
		A Company of the Comp							
		Answer: £							
		284008 8							

20.	The	number se	equence	s in this q	uestion	all go up	or down by	a fixed numb	oer.
	(a)	Write a nu	ımber in	each box	to con	tinue the	sequence.		
		(i) 5.4,	5.8,	6.2,	5.6,				
		(ii) 1.3,	1.23,						
	(b)	In a numb	er seque	ence, the 2	2nd teri	m is 6 and	the 5th ter	m is 18, as sh	own below.
		What is th	e 7th te	erm in the	seque	nce?			
		, 6,	,	, 1	8,	.,

Answer:	 cm

(b) The man in the diagram is 1.8 metres tall.

Use this fact to estimate the height of the tree.

Answer: ..... m

23. Reflect the shape below in the dashed line.

24. Shapes A, B, C and D are drawn on the grid below.

(a) Which shape has the largest area?

Angream	
Allswel.	

- (b) Draw all lines of symmetry on each shape.
- (c) On the grid below, draw a shape made up of 8 little squares which has rotational symmetry order 2 but has no lines of symmetry.

Rotational symmetry order 2 means that the shape will fit onto itself exactly 2 times when it is turned about its midpoint.

25. (a) This is what Evie sees when she glances at her clock in the mirror.

Write the time her clock actually shows, using the 12-hour clock.

Answer: £ .....

			Answer:	
(b)	A film lasting 2 h At what time did		utes started at 16:55	
			Answer:	
(c)			silence at exactly 15 in the table below.	:00 and, one by one, burs
	*	name	time silence ended	
		Holly	16:29

			Answer:	miı
			pence for each minutee girls raise in total?	te that she remained silent

 $\bigcirc$ 

26. Ben asked people about their favourite type of cheese. The results of his survey are shown below.

- (a) What percentage of the people said Edam?
  - Answer: %
- (b) What fraction of the people said Brie?
- Answer: .....

- 18 people said Edam.
- (c) How many people said Goat's Cheese?
- Answer: .....
- (d) How many more people said Cheddar than said Cheshire?

27. This object is made from cubes.

There are no hidden cubes.

(a) How many cubes are needed to make the object?

Answer:

(b) The diagrams below show possible front and side views of the object.

Write the letter of the diagram which shows the

front view .....

side view .....

(c) On the grid below, draw and shade the plan view of the object.

28. Miss Smart has a set of hexagonal spinners.

Each section on a spinner contains a number between 1 and 6

Write a number in each section of the spinner so that

(a) the spinner is certain to land on a number less than 3

(b) the spinner is twice as likely to land on an even number as on the number 5

(c) the spinner is equally likely to land on a square number, an even number or an odd number

29. *Chocolate Heaven* sells 10 different types of hand-made chocolates. The price of each type of dark chocolate is shown in the table below.

type	dark chocolate			
Strawberry Surprise	28p			
Mint Memories	35p			
Damson Delight	27p			
Fruity Flake	25p			
Caramel Cup	30p			

						-		_			
1	a)	What is	the	total	cost	$\alpha f$	the	5	dark	chocolates?	)
١	$a_{j}$	44 Hat 19	uic	wiai	COSt	OI	uic	J	uair	chocolates:	

Answer:	£
---------	---

(b) What is the mean (average) cost of a dark chocolate?

For each type of chocolate, there is a milk chocolate version which costs 2p less than the dark chocolate version.

(c) Write down the mean cost of a milk chocolate.

- (d) Jill buys one of each type of dark chocolate and each type of milk chocolate as a gift for her friend.
  - Using your answer to part (a) or otherwise, work out the cost of all 10 chocolates.

30. Points A, B and C have been plotted on the coordinate grid below.

(a) When a straight line is drawn from A to B, the midpoint is point D. Write down the coordinates of point D.

A	(			`
Answer:		,	**********	J

(b) The point E is such that if a line is drawn from B to E, point C is two thirds of the way from B to E.

Write down the coordinates of point E.

31.	Field crickets chirp according to the temperature of their surroundings.
	You can use the following rule to work out the temperature:

temperature in °C = (number of chirps per minute -40) ÷ 7 + 10

(a) Freddie, the field cricket, chirps 61 times per minute. Work out the temperature of Freddie's surroundings.

Answer: .....°C

(b) Flora, the field cricket, chirps 41 times in 30 seconds. Work out the temperature of Flora's surroundings.

Answer: .....°C

(c) The temperature of Flossie's surroundings is 18°C. Work out how many times Flossie chirps in 1 minute.

32. Between 3 a.m. and 6 a.m. the hour hand on a clock moves through an angle of 90°.

Work out the angle which the hour hand on a clock moves through between

(a) 9 a.m. and 10 a.m.

Answer:	 (
THIS WCI.	

(b) 12:45 and 13:15

(c) 6.30 p.m. and 8.50 p.m.

Anarron	0
AIISWEL.	

33. Jane bought a packet of sweets.

A quarter of them were green, a third of them were red and the rest were yellow. There were 10 yellow sweets.

What was the total number of sweets in the packet?

A newer.		
THIS WULL.	***************************************	۰

34. In the balancing puzzle below, each symbol represents a different number. In all of the diagrams, the symbols on either side of the scale are balanced.

Work out how many o are equivalent to one

35. In a doctor's waiting room, there are 6 seats in a row.

Mr Spencer arrives with his 2 children. He wants to sit between his 2 children.

3 other people arrive who do not mind where they sit.

How many different possible seating arrangements are there of the 6 people? *You may find the boxes helpful.* 

36. (a) The shape below is made from squares.

not to size

The perimeter of the shape is 100 centimetres.

Work out the area of the shape.

Answer:	 $cm^2$
the second of the second	 

(b) Work out the area of the shape drawn on the centimetre-squared grid below.

Answer: ..... cm<sup>2</sup>

37. Circle the net which could make the cube shown.

38. Write a letter from A to H inclusive in each box in the diagram below. Each letter should be used exactly once.

Consecutive letters are not allowed to touch either at an edge or a corner.

For example, B cannot touch C or A at either an edge or a corner.

A
B
C
D
F
G

H

- 39. The time in Sri Lanka is  $4\frac{1}{2}$  hours ahead of London. For example, when it is 3 p.m. in London, it is 7.30 p.m. in Sri Lanka.
  - (a) What time is it in London when it is 1.15 p.m. in Sri Lanka?

Answer: .....

The time in New York is 5 hours behind the time in London. Bill's journey from New York to Sri Lanka takes exactly 30 hours. Bill leaves New York on Wednesday at 19:40

(b) On which day and at what time does Bill arrive in Sri Lanka?

Answer: on ...... at ...... at .....

40.	Each letter in the words below represents a number less than 10
	The values of the letters in each word are then multiplied together to give the result shown.

Given that

$$BAT = 90$$
,  $LET = 168$  and  $BET = 105$ , what is the value of TABLE?

Answer:		
---------	--	--

#### 41. On a game show, there are 3 doors.

Behind one door, there is £1000 and behind another, there is a spider! Behind the other door there is nothing.

Each door has a notice. However, only one notice is true.

There is nothing behind door 3.

The spider is behind this door.

There is a spider behind door 1.

Behind which door is £1000?

Answer: .....

(Total: 100 marks)
